

Yewstock School

Family Support Advisor

Yewstock School would like to formally introduce you all to our school based Family Support Advisor.

Claire Kellaway-Moore is available by appointment Monday, Wednesday, Thursday 9am - 3pm to meet or talk over the phone with parents/carers and relatives on an individual basis. She can offer information, advice and practical support on a wide range of issues both within school and out. Claire can also signpost parents to information and support available from other local and National services.

On Fridays Claire Coordinates our National Autistic Society, Earlybird Plus Programme for parents and carers across Dorset who have a child with a diagnosis of Autism.

Our service aims to provide social events for families to meet other families, together with opportunities to learn new skills, enabling family members to become more involved with their child's learning.

To contact Claire or make an appointment please contact the school office who will pass on your details. Or you can contact her via email:
